

19.54.080 Soils reports.

Because of the fragile nature of the soils in some areas of the foothills within the FA zones, the development services director or planning commission may require the applicant to submit a soils report prepared by a qualified soils engineer to verify the suitability of soils for the intended use. If the property is subject to the requirements set forth in Section 19.54.070 of this chapter, the soils report may be combined with any required natural hazards report. (Ord. 1417 § 6 (part), 1998)
